Why work with us

We are an experienced team delivering the work.

We have over 40 years recruitment experience and still enjoy it! Our combined professional networks and knowledge will enable us to provide a 1st class service.

We are purposely a small team.

We work closely and collaboratively, keeping both quality of service and calibre of candidate at the centre of what we do.

Our process means we deliver targeted shortlists.

Thinking about how we build a shortlist, competency assessment and our profiling tool PFIT mean we will get it right the first time.

Our values make up who we are.

We never over-sell and are fun to deal with along the way.

We believe the best business is done face-to-face.

We are not a volume phone-based business, and would rather build meaningful long-term relationships.
